

11 practical AI workflows for B2B marketers.

Pick one job. Open the skill. Give it to the AI agent you already use. Each workflow defines the inputs, process, output, quality checks, and stop conditions for reviewable B2B marketing work.

Your AI creates. Folloze puts approved work in market.

Folloze helps teams build and launch governed campaign destinations, personalize content paths, and capture first-party engagement signals that guide the next move.
